

SHML
SWISS COLLEGE OF HOSPITALITY MANAGEMENT

The Post Grad Diplomas are aimed at different participants' profiles:
 1. Graduates aspiring to upgrade their hospitality education or switch to a hospitality career
 2. Professional hoteliers aspiring to progress within the hospitality hierarchy
 3. Entrepreneurs desiring to discover hospitality operations and/or hospitality management.

The Higher Diploma (Undergraduate path) is designed for students determined to complete the BA within 3 years. Two years at SHML are very demanding, requiring talent, focus and a keen dedication to studies. This, to guarantee and possibly exceed the entry level for the final year at one of the SHML partner universities.

The Associate Degree (Undergraduate path) is designed to achieve the same results as with the Higher Diploma, but at a normal pace, allowing more time for students to study and practice programs content.

The Diplomas (3) are designed for fast track access to first employment, with knowledge that covers the entire operations, including guests contact, supervisory activities, management theories, and state-of-the-art applications. (Majors in: hotel, culinary, bakery). Programs delivery relies on customization. Options include: luxury 5-star environments, budget hotel chains, restaurant operations, catering, future small entrepreneurs. Academic progression is possible to 3rd year Associate Degree (see flow chart).

The Foundation program, including intensive English, is designed for students to prepare for their future within a demanding and potentially rewarding field of activity: the hospitality industry.
